

**BRUNEL* MAY
BE HISTORY,
BUT SYPHILIS
IS NOT!**

**A SURGE IN SYPHILIS CASES
HAVE BEEN DIAGNOSED
IN THE SOUTH WEST**

*Brunel did not have syphilis but many other historical figures did.

**Syphilis can be transmitted through all types of sexual contact.
This includes oral sex and shared toys.**

Syphilis can also be passed on to your baby during pregnancy.

Symptoms can include:

- a painless sore (chancre) on your genitals, anus or around your mouth
- a rash on your body, especially on your hands or the soles of your feet
- swollen glands
- flu-like symptoms, a fever or a headache.

**Not everyone who has syphilis will have symptoms.
Get tested: www.unitysexualhealth.co.uk/syphilis**

**Be Informed.
Be Safe.
Be In Control.**
